College of Pharmacy Fire Alarm Rally Point

In case of fire alarm:
1. Exit building
2. Proceed to rally point – the area in front of Med Labs
3. Wait for all clear to return to the building

After consulting with Bruce McAvoy, University of Iowa Fire Safety Coordinator, the College now has one rallying point, the area in front of Med Labs, directly north of the College of Pharmacy. All faculty, staff and students are suggested to report to this location following a fire alarm. The area in front of the Fieldhouse will be under construction (April 2017) for an extended period of time and therefore not chosen as a rally point. In case the Med Labs Rally Area is somehow compromised, the backup rally location is the UIHC Patio, west of the South Tower of the College of Pharmacy.
